

Dear Ma'am/Sir,

I am writing to express my strong interest in the Frontend Developer position at your company, as advertised. With over **six years of experience in the IT industry** and a Bachelor's degree in **Information Technology**, I have developed a strong foundation in creating responsive, user-focused web applications using modern frontend technologies.

My technical skills include **HTML**, **CSS** (Bootstrap, Tailwind, SASS), and **JavaScript**, along with frameworks like **React.js**, **Next.js**, and **Redux**. I am well-versed in version control using **Git**, and have collaborated effectively with teams through platforms like **GitHub** and **GitLab**. In addition, I have experience deploying and managing applications using **Microsoft Azure** and **AWS**. I also leverage tools like **Storybook** for component-driven development and to ensure scalable, maintainable code.

Beyond coding, I bring a design-conscious mindset to development. My familiarity with tools like **Figma**, **Adobe XD**, **Photoshop**, and **Illustrator** allows me to work seamlessly with UI/UX designers and ensure that design intentions are brought to life in the final product.

What drives me as a developer is the opportunity to build intuitive, high-performance interfaces that deliver real value to users. I take pride in writing clean, maintainable code and thrive in collaborative environments where learning and innovation are encouraged.

I am excited about the opportunity to contribute to your team and help create exceptional digital experiences. I would welcome the chance to discuss how my background and skills can align with your team's goals.

Thank you for considering my application. I look forward to the opportunity to speak with you further.

Sincerely,
John Lloyd Mayol
